Scale: Open question | 8 answers by 8 respondents

1. I liked the structure of the lectures and the ability to ask questions in the tutorials. The lecturers were very helpful and knowledgeable on the course as well and made it fun for me.
2. Good balance of knowledge and skills acquired
3. Clear formulation of the material by the teachers. When urged to, they came up with examples easy to remember
4. The lecturer (2nd half) gave his lectures with only the text. It helped me to better understand his arguments and to find them in the texts. With this format it also improved my skills reading the texts.
5. I really enjoyed this course because it laid down the foundational necessities of practicing philosophy and reading philosophical texts.
6. The chosen material (authors, books) were correlated with each other in a very delicate manner.
7. Heel interessant om verschillende filosofen naast elkaar te moeten leggen en verschillende onderwerpen vanuit veel perspectieven te bekijken.
8. I liked the lectures. The way they were given with many examples worked very well for me.

What could be improved about this course?

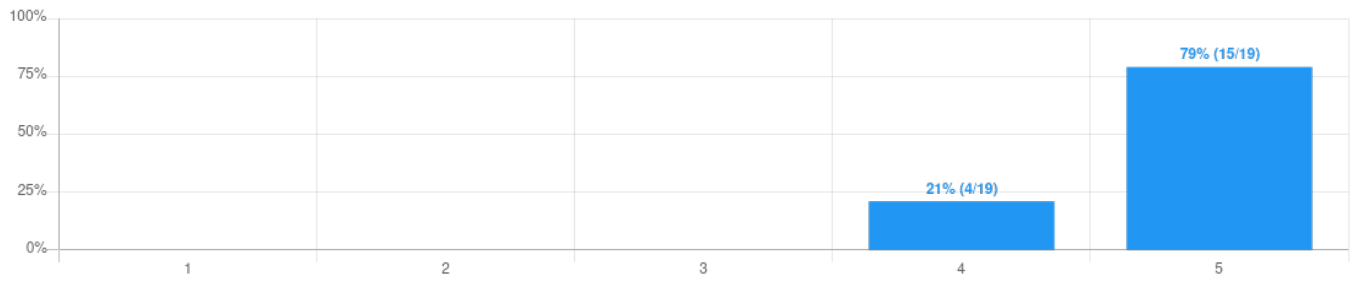

Scale: Open question | 4 answers by 4 respondents

1. Nothing
2. I would have loved to get the opportunity to write an essay instead of one of the written exams. However I get that this would provide much more workload for the lecturers, so it is just something that I would have liked because the course material is interesting.
3. Ik miste soms ondersteunende powerpoints, waar de kern van de filosofen in naar voren kwam.
4. Didn't follow the text always, but that is part of the job i think:)

The lecturer explained the subject matter clearly.
