What could be improved about this course?

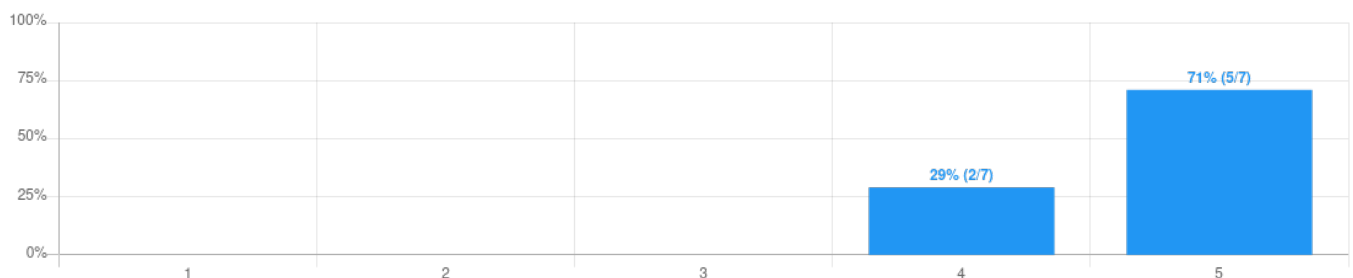

Scale: Open question | 3 answers by 3 respondents

1. Overall I am very satisfied with the course. I cannot really think of something to improve right away!
2. - Module 1 could be much more substantive (more can be achieved). Too little gets discussed in class. Actual canonical texts should be included while discussing the canon and its history. - Module 2 – again, I think more can be covered. Formal explanations are fine but it should be applied to canonical texts in some manner. So theoretical critiques + immediate applications to canonical texts (e.g. how can we support these critiques from within the canon)
3. Availability of course material.

The lecturer explained the subject matter clearly.
